DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-4, drawn to polynucleotide, host cell and a method of making the polypeptide.

Group II, claims 5-6, drawn to a polypeptide.

Group III, claims 7 and 8, drawn to a method of converting a substrate into a product.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, An initial search of the prior art indicates that the invention of claim 1, (group I) was already known in the prior art and thus when the invention is considered as a whole does not contribute over the prior art. See Steenbergen et al., 1992, J. Bacteriol. Vol. 174(4):1099-1108 and Vimr et al. 1992, J. Bacteriol., Vol.174(15):5127-5131.

A telephone call was made to Donald Lewis on 10-17-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1652

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
